Court

"The daily service was performed at the altar of burnt offering in the court of the tabernacle and in the holy place; while the yearly service was in the most holy. The daily service consisted of the morning and evening burnt offering, the offering of sweet incense on the golden altar, and the special offerings for individual sins. And there were also offerings for sabbaths, new moons, and special feasts.

Every morning and evening a lamb of a year old was burned upon the altar, with its appropriate meat offering, thus symbolizing the daily consecration of the nation to Jehovah, and their constant dependence upon the atoning blood of Christ. God expressly directed that every offering presented for the service of the sanctuary should be "without blemish." Exodus 12:5".

Holy Place

"In the offering of incense the priest was brought more directly into the presence of God than in any other act of the daily ministrations. As the inner veil of the sanctuary did not extend to the top of the building, the glory of God, which was manifested above the mercy seat, was partially visible from the first apartment.

The shewbread was kept ever before the Lord as a perpetual offering. Thus it was a part of the daily sacrifice. It was called shewbread, or 'bread of the presence,' because it was ever before the face of the Lord. It was an acknowledgment of man's dependence upon God for both temporal and spiritual food, and that it is received only through the mediation of Christ.

"On the south was the seven-branched candlestick, with its seven lamps. There being no windows in the tabernacle, the lamps were never all extinguished at one time, but shed their light by day and by night."

Most Holy Place

"Such was the work that went on day by day throughout the year. The sins of Israel being thus transferred to the sanctuary, the holy places were defiled, and a special work became necessary for the removal of the sins. God commanded that an atonement be made for each of the sacred apartments, as for the altar, to "cleanse it, and hallow it from the uncleanness of the children of Israel." Leviticus 16:19." Patriarchs and Prophets, chapter 30.

Underlying Principle which Protects: Liberty of Conscience - Religious Liberty - Freedom of Religion

"The God-given right of religious liberty and liberty of conscience is best exercised when church and state are separate. Government is God's agency to protect individual rights and to conduct civil affairs; in exercising these responsibilities, officials are entitled to respect and cooperation.

Attempts to unite church and state are opposed to the interests of each, subversive of human rights and potentially persecuting in character; to oppose union, lawfully and honorably is not only the citizen's duty but the essence of the golden rule - to treat others as one wishes to be treated." <http://www.irla.org/>

Warning

Liberty of Conscience Threatened

"To protect liberty of conscience is the duty of the state, and this is the limit of its authority in matters of religion. Every secular government that attempts to regulate or enforce religious observances by civil authority is sacrificing the very principle for which the evangelical Christian [in the past] so nobly struggled."

The Great Controversy, 201

United States of America is the only country which guarantees separation of Church and State as written in its Constitution.

It is time for true Protestants to Protest!

Brain Nerves, Body Nerves and 11 Systems

We have 12 pairs of brain nerves which connect to the 5 senses and 31 pairs of body nerves which connect to the 11 systems of the body.

Here is the list of the 11 Systems:

1. Nervous
2. Integumentary
3. Muscular
4. Skeletal
5. Respiratory
6. Cardiovascular
7. Digestive
8. Urinary
9. Reproduction
10. Lymphatic
11. Endocrine

Electrical Measurement of the Membranes

"Electrical measurements indicate that the inside of the membrane (of muscle or nerve) becomes +30 mV with respect to the outside. Thus, the potential inside the membrane changes from -70 mV to 0 mV to +30 mV." www.numbers1317.org/Brain_Nerves/Brain_Nerves_10.html

God endowed man at creation with 20 times as much vital force as man now has:
 $20 \times 30 \text{ mV} = 600 \text{ mV}$ man's vital force at creation

Brain Nerves and Body Nerves Under Repair

"Pray that the mighty energies of the Holy Spirit, with all their quickening, recuperative, and transforming power, may fall like an electric shock on the palsy-stricken soul, causing every nerve to thrill with new life, restoring the whole man from his dead, earthly, sensual state to spiritual soundness." Testimonies, Vol. 5 p. 267

"The Savior, provided a way to re-establish the original communication system between Himself and man: "The brain nerves that connect with the whole system are the only medium through which heaven communicates with man and affects the inmost life." Education p. 209.

Upon the consent of man, the Holy Spirit, working through man's will, revitalizes his whole being and through the 24 brain nerves initiates a process which gradually brings about the restoration of all man's faculties to functional harmony.

The faculties of the mind themselves (intellect, conscience, reason) are not supernaturally restored to sinless perfection, but rather are, through the channels of man's own will, so completely subjected to the Holy Spirit, that they no longer function as before under their own perverted inclinations." http://www.numbers1317.org/Brain_Nerves/file_17_14.html

"In the great and measureless gift of the Holy Spirit are contained all of heaven's resources. If all were willing to receive, all would become filled with His Spirit." Christ Object Lessons, p. 419

Brain Nerves Control of Body Nerves Restored

Spinal Nerve Impulse Conduction

"God endowed man with so great vital force that he has withstood the accumulation of disease brought upon the race in consequence of perverted habits, and has continued for six thousand years. This fact of itself is enough to evidence to us the strength and electrical energy that God gave to man at his creation.

It took more than two thousand years of crime and indulgence of base passions to bring bodily disease upon the race to any great extent. If Adam, at his creation, had not been endowed with twenty times as much vital force as men now have, the race, with their present habits of living in violation of nature law, would have become extinct." Testimonies Vol. 3, p. 138, 139

"But they that wait upon the LORD shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint." Isaiah 40:31

A Religion of Fable and Tradition

"In seeking to cast contempt upon the divine statutes, Satan has perverted the doctrines of the Bible, and errors have been incorporated into the faith of thousands who profess to believe the Scriptures.

The last great conflict between truth and error is but the final struggle of the long standing controversy concerning the law of God.

Upon this battle we are now entering - a battle between the laws of men and the precepts of Jehovah, between the religion of the Bible and the religion of fable and tradition." The Great Controversy, p. 582.

Statutory Law at Childbirth

Cleanliness at childbirth

"If a woman have conceived seed, and born a male child: then she shall be unclean seven days; according to the days of her separation for her infirmity shall she be unclean. And she shall continue in the blood of her purifying three and thirty days; she shall touch no allowed thing, nor come into the sanctuary, until the days of her purifying be fulfilled." Leviticus 12:2, 4. $7+33= 40$ days unclean after a baby boy.

"But if she bear a maid child, then she shall be unclean two weeks, as in her separation, and she shall continue in the blood or her purifying threescore and six days." Leviticus 12:5. $14+(3 \times 20)+6= 80$ days unclean after a baby girl.

Estrogen and the 40/80 days Sexual Abstinence

"A part of the postpartum period (one to two weeks) is characterized by the abundant discharge of lochia. This is extremely alkaline, and a highly favorable terrain for the multiplication of bacteria. Stringent cleanliness must be maintained, since the woman is extremely vulnerable to infection at this point. Because it is still distended, her uterus provides an ideal environment for microbes to multiply.

It should come as no surprise to anybody that postpartum women are very delicate and obviously at risk for hemorrhaging, prolapse, pre-embolism and infection, as well as psychoses. The new mother needs a great deal of calm, kindness, relaxation and concentration if she is to recover her physical and mental equilibrium.

Resuming sexual relations too hastily exposes her not only to incredible risks of infection, needless pain because of vaginal dryness - a sign of lower estrogen blood levels, which will gradually rise and shortly become normal again if she gave birth to a boy, slightly longer for a girl - but, most particularly, feelings of anxiety or frustration which are often very intense. When a woman has just had a baby, she needs to truly enter into her role of mother."

Gregorian Calendar vs. Barley Harvest Calendar

Why do we need calendars?

Calendars have been used for centuries for economic, agricultural, political reasons and to appoint times and seasons.

However, the main reason for creating calendars was and still is today, for a religious purpose: to worship God or gods at appointed times! The appointed times or holidays vary depending of the calendars used and who creates them:

Gregorian Calendar Feasts: Saturday, Sunday, Christmas, New Year and other feasts of the Roman Catholic Church are based on the sun. Easter is observed on the Sunday following the Rabbinical Jewish Passover ascertained by the full moon following the equinox of March 21st—none of these calendar and feasts are found in the Bible.

Biblical Calendar Feasts: 7th day Sabbath, Passover, Unleavened Bread, Firstfruits, Pentecost, Trumpets, Atonement, Tabernacles are based on Leviticus 23 and the New Moon Horned Crescent, the Sun and the Barley Harvest—all found in the Bible.

Abstinence during Childbirth and Menstruations

Complete sexual abstinence for 40 or 80 days during childbirth and woman's menstruations prevents cervical cancer.

"Menstrual blood contains larger quantities of such irritants as choline, arsenic and creatinine. Some researchers have discovered a "menotoxin" which has a toxic effect on plants. Smith has carried out experiments on what he has called "menstrual toxin," a euglobulin produced by cell necrosis [dead cell], and has shown that it causes hemorrhaging, edema and even death in some cases when inoculated in animals.

Menstrual blood can also increase the virulence of female genital microbes, including gonococcus and herpes. It is known that menstruation promotes the recurrence of catamenial herpes—venereal diseases.

The male foreskin is very susceptible to all such irritants, which can cause cancer of the glans. This is virtually unknown in circumcised men who follow orthodox religious practices and do not approach their wives while the latter are "unclean." Menopause A New Approach, Danièle Starenkyj, Orion Publications, p. 52-60 (excerpts). http://www.numbers1317.org/file_19_statute_08.html
